

Corporate Safeguard

At Samphire Risk, our common goal is to protect our clients from 'bad people doing bad things'. We have witnessed first-hand the devastating impact that kidnapping, extortion and malicious threats can have on businesses, their employees and their families.

Hostile actions can overwhelm the most competent business owners and managers. What gives them peace of mind is the knowledge that they can call on true expertise in their moment of need, look their people in the eye and say "We did everything we could". Samphire's simple promise is to deliver this expertise through insurance and world class crisis response.

A Crisis Response Team

You have a response team that is ready to mobilise whenever an insured crisis event takes place, anywhere in the world. Your response team guides you through every aspect of any of the scenarios covered until, and only when, safe resolution is achieved. The policy will cover fees and expenses on an unlimited basis.

Malicious Risks

Over time the nature and intent behind malicious threats have changed. Historically, kidnap for ransom was a specific risk faced by organisations operating in certain parts of the world. Today, complex extortion and sophisticated threats play a more significant role for businesses wherever you and your people work – at home or abroad.
