

Marine Safeguard

Maritime Piracy Insurance

By some accounts, marine piracy began over 2000 years ago in Ancient Greece. In a familiar style, pirates would capture other ships to steal valuable cargo, often retaining the ship for themselves. It is one of the oldest crimes in the world and its impact still reverberates today. At Samphire Risk, our common goal is to protect our clients from 'bad people doing bad things'. We have witnessed first-hand the devastating impact that marine piracy can have on maritime operators, their employees, contractors and their families.
